- 1 jar of fig red port dip
- 1 jar of fig mustard

### Preparation

Make it a party this Saint Nicholas with a gourmet cheeseboard! A perfect cheese board for young and old alike.

In the theme of Sinterklaas, we made a sinterklaas cheese letter but as a drinks board and here's how to make it:

1. Take a nice board and put the different types of cheese on it.
2. Put the cheese in an S shape on the board. We used the beautiful yellow Gouda & cheese for the letter.
3. Place the dips between the cheeses and spread the nuts on the board.
4. Further complete the board with some toasts or crackers and fig bread or fruit bread.
5. Add some raw vegetables such as carrots, for example. Especially choose your own favourites!
6. Sprinkle some nice sprinkles in between for that real Saint Nicholas feeling and don't forget the speculaas.
7. Make sure the cheeses are at room temperature before serving.
